NURSERY AND OFFICE
Concord Road
BEDFORD, MASS.

Tel. Lexington 1220

"Who kneels to weed his garden, kneels in prayer, Tho' only God in daffodils be there."

We have listed only such varieties as can be purchased in quantity.

Specimens of many other varieties can be supplied from our Nursery.

(Where Your Father Purchased)

#### LOCATION

Our office and nursery are located on the Bedford-Concord Road, Route 62, one mile from Bedford Center and three and one-half miles from Concord. To reach us from Boston, which is 15 miles distant, drive through Arlington, thence through Lexington to Bedford. From Lowell which is 12 miles distant, drive through Billerica to Bedford. Motor Busses from Arlington Heights to Concord, via Bedford, pass the nursery at frequent intervals.

Purchasers should state plainly the mode of conveyance by which stock should be forwarded. Otherwise we exercise our judgment. For delivery by motor truck, a cartage charge will be made in accordance with size of load and distance to be hauled.

All prices given are for the stock at the nursery, and freight or express charges are payable by customer.

### CONDITIONS OF SALE

Terms are Cash, excepting by special agreement.

A Discount of 5% is allowed for cash with order.

We give no warranty, expressed or implied, as to quality, description or productiveness, of any nursery stock that we sell. The only guarantee we make is that our stock is alive at time of shipment and true to name. No complaints will be considered that are not made within ten days after receipt of order. Any stock ordered from this list, found untrue to name, will be cheerfully replaced at the first favorable opportunity for planting, after it has been found not as ordered.

Time for Planting. All hardy trees and plants of any description can be safely transplanted in the Spring as soon as frost leaves the ground, and usually as late as about June 1st. Also during the period beginning September 15th and continuing until the ground becomes frozen. Evergreen trees and shrubs can further be safely handled during August.

We respectfully invite correspondence pertaining to problems of interest to planters.

#### **EVERGREENS**

The term "Evergreen" is given to that group of trees, shrubs and plants retaining their leaves throughout the year. They range in size from the massive White Pines, Spruces and Hemlocks which grow to a height of 75 to 100 feet and taller, down to the lowest growing perennials, some of which are not more than I inch high when fully grown.

In making an Evergreen planting it is very necessary that suitable varieties be used if the proper effect is to be had. For instance, tall growing Pines and Spruces should never be used as a foundation planting as they will soon become too large and have to be removed. And some of the very dwarf perennial Evergreens are best suited in a rock garden, or under large trees in dense shade.

To help those who are not familiar with the various types of Evergreens, we have divided them into three groups. The first is that of tall growing trees, suitable for specimen planting on lawns, as windbreaks and screens, reforestation, and grouping for landscape effect where space permits. The second is made up of the best varieties for use as foundation planting around homes, for grouping in corners of the lawn or in any space where a spot of green is wanted throughout the year and the space is limited. The third is mostly the broadleaved plants such as Rhododendrons, Mt. Laurel, etc., the Heathers and Evergreen Euonymus. Many of these may be included in plantings of the preceding group, and in addition to being Evergreens, some bear beautiful flowers. Most of this group like a shady situation, and some of them require it to be at their best.

Group 1

Fach

1.50

| F: (A): ) C  | Each   |

## ROSES

Only the very hardiest and distinct varieties are listed. We can supply almost any variety. Send us your list for prices on unlisted sorts.

### HYBRID PERPETUAL

### HYBRID TEA

These are the everblooming roses, but require protection during the Winter. Only a few of the many varieties, selected for hardiness in New England. .60 Betty Uprichard, salmon pink stained copper. Caroline Testout, rose pink. Etoile de Holland, dark red, very fragrant. Etoile de France, dark red. Golden Ophelia, golden yellow, good for cutting. Golden Pernet, bright gold. Gruss An Teplitz. Dark red, free flowering. Killarney pink, clear pink. K. A. Victoria, pure white, double. J. J. L. Mock, large pink. La France, clear pink. Luxemburg, clear yellow. Mme. Butterfly, pink and yellow. Mrs. Aaron Ward, golden buff. Margaret McGredy, red shading to gold, free flowering. Ophelia, creamy white, tinted yellow. Padre, copper scarlet. Pres. Hoover, pink shading to scarlet and yellow. Radiance pink, large pink flowers. Radiance red, large red. Souvenir de Claudius Pernet, clear yellow. Talisman, copper red on yellow. Willowmere, pink tinted yellow.

# CLIMBING AND RAMBLER ROSES

American Pillar, large single flowers, red white center. Climbing American Beauty, crimson.
Aviator Bleriot, yelow shading to pink.
Christine Wright, bright pink.
Crimson Rambler, clusters of small crimson flowers.
Dorothy Perkins, clusters of pink flowers.
Dorothy Perkins, white, similar to above.
Dr. W. Van Fleet, flesh pink, double.
Mary Wallace, pink, similar to Dr. Van Fleet.
Silver Moon, white, yellow center.
Excelsa, an improved Crimson Rambler.

# BABY RAMBLER OR POLYANTHA ROSES

Each
Bloom until frost and excellent for borders. . .50
Golden Salmon, salmon yellow.
Ellen Poulsen, bright pink.
Miss Edith Cavell, dark red.

#### **DECIDUOUS TREES**

| This group has also been divided, those trees used shade being listed first, while those that are planted for their flowers or shape are mentioned separately.  Maples (Acer). The maples are the most popular shade trees, and are so well known that detailed description is unnecessary.  Norway (Platanoides). A large growing tree |      |
|---|------|
|   |      |
| giving dense shade, quite largely planted in cities. 8 to 10 ft.  | 2.00 |
| 10 to 12 ft   | 3.00 |

| " red leaved (Schwedleri). Leaves open red in Spring, changing to deep reddish  |      |
| green during season. 7 to 8 ft  | 2.50 |
| Sugar (Saccharum). A beautiful shade tree with brilliant colored leaves in Autumn.  |      |
| 6 to 8 ft   | 1.50 |
| 8 to 10 ft.   | 2.25 |
| 10 to 12 ft.  | 3.00 |
|   | 3.00 |
| Weir's cut leaf. A fast growing maple with  |      |
| deeply cut leaves. 8 to 10 ft.  | 1.25 |
| maple, at home both in wet or dry soils.  |      |
| 8 to 10 ft  | 1.00 |
| 10 to 12 ft   | 2.00 |
|   | 2.00 |
| Birch (Betula). Birches are planted more for their  |      |
| white bark than for shade.  |      |
| Cut leaf weeping (Alba pendula gracilis).   |      |
| Finely cut leaves with drooping branches.   |      |
| A specimen tree. 6 to 8 ft.   | 2.25 |
|   | 2.20 |
| White European (Alba). A large growing tree with white bark. 8 to 10 ft   | 2.00 |
|   | 2.00 |
| Elm (Ulmus). American. Our native Elm.  8 to 10 ft  | 1.50 |
| Chinese (Pumila). Grows much faster than  |      |
|   |      |
| native Elm if in a favorable position.  |      |
| 8 to 10 ft  | 1.50 |

|  | Each        |
|--|-------------|
| Larch (Larix). European Larch or Tamarack. A   |             |
| cone bearing tree with light green needles   |             |
| which drop in the Fall. 6 to 7 ft  | 2.00        |
| Linden (Tilia). Also called Basswood. Large leaves. 8 to 10 ft                             | 2.00        |
| Cordata. Small leaved European, much used  | 2.00        |
| in planting on Parkways and City streets.  |             |
| 6 to 8 ft  | 2.25        |
| 8 to 10 ft   | 3.00        |
| Mountain Ash (Sorbus aucuparia). A good com-   |             |
| pact tree bearing large bunches of orange red berries in Fall. 8 to 10 ft                  | 1.00        |
| Poplar (Populus). Fast growing trees used for quick  | 1.00        |
| effect.  |             |
| Carolina (Eugenei). Spreading branches.  |             |
| 8 to 10 ft   | 1.00        |
| Lombardy (Italica). A narrow spire-like tree   | ,           |
| of very rapid growth, often used for screens   | .75         |
| and along drives. 6 to 8 ft  | 1.00        |
| 10 to 12 ft  | 1.50        |
| Willow (Salix). Wisconsin weeping. A graceful tree.  |             |
| 6 to 8 ft  | 1.00        |
| <b>Niobe.</b> A golden barked weeping willow.  |             |
| 6 to 8 ft  | 1.50        |
| FLOWERING AND ORNAMENTAL TR  | EES         |
| These are used mostly as specimens on lawns for  |             |
| flowers or foliage, and do not grow into very large  | trees.      |
| Many remain quite dwarf.   |             |
| Catalpa bungei or umbrella catalpa. Used in formal   |             |
|  | 1.50        |
| White fringe (chionanthus virginica). Really a large                                       |             |
| shrub with thread-like flowers, very fragrant. 2 to 3 ft.                                  | 1.00        |
| Dogwood (Cornus). White flowered. A native tree  | 1.00        |
| with white flowers opening before it leaves  |             |
| in Spring. 3 to 4 ft   | 1.00        |
| Red flowered. Similar to the white but with  | 0.50        |
| pink or red flowers. 3 to 4 ft   | 2.50        |
| Crab (Malus). The flowering crabs are very ornamental, some bearing fruits which are showy |             |
| during the Autumn.   |             |
| Betchel's or ionensis fl. pl. Large double pink  |             |
| flowers. 3 to 4 ft Atrosanguinea. Single carmine pink flowers.                             | 1.25        |
| Atrosanguinea. Single carmine pink flowers.  | 1.50        |
| Parkman's crab or Parkmanni. Double, rosy  | 1.50        |
| red, drooping flowers, very ornamental.  |             |
| 3 to 4 ft  | 1.50        |
| Scheideckeri. Double pink flowers followed by  |             |
| yellow fruit in Fall. 3 to 4 ft  | 1.50        |
| Lilac (Syringa). Japonica. The Japanese lilac is a   |             |
| small tree with large trusses of creamy white flowers in June. 4 to 5 ft                   | .75         |
| Mulberry (Morus). Russian mulberry, planted  | .75         |
| mostly to attract birds. 5 to 6 ft.  | 1.00        |
| Weeping mulberry. Straight stems 4 to 5 ft.  |             |
| tall with branches drooping to ground.   | 1.50        |
| Thorn (Crataegus). Paul's scarlet. A double red  | 2.00        |
| flowered tree. 3 to 4 ft   | 2.00        |
| pink flowers. 4 to 5 ft  | <b>.7</b> 5 |
|  |             |

# **DECIDUOUS SHRUBS**

|   | Each |
|---|------|
| The flowering shrubs are particularly valuable for ing in groups, as a border planting along the pro- |      |
| line, as well as around the house.  Each 50c, \$4.00 per 10, except where noted.                      |      |
| Acanthopanax pentaphyllum or five leaved aralia. A foliage shrub suitable for hedge or in             |      |
| shady spots. 2 to 3 ft. plants.  White maple (Rubrum). Our native swamp                               |      |
| Azalea calendulacea (Flame azalea). Beautiful yel-  | 2.50 |
| low and orange flowers. 18 to 24 in " mollis. The Chinese azalea. Large orange yel-                   |      |
| low flowers. 15 to 18 in. " nudiflora. A native pink azalea, often called                             | 2.00 |
| June pink in the New England states and Honeysuckle in the Southern. 18 to 24 in.                     | 2.50 |
| Barberry (Berberis). See hedge plants.  Red leaved Japanese. 18 to 24 in.                             |      |
| Butterfly bush (Buddleya). Also called summer lilac. Blue lilac-like flowers throughout the sum-      |      |
| mer.  Calycanthus floridus. Also known as sweet shrub.  |      |
| Odd chocolate colored flowers. 2 to 3 ft. Caragana arborescens (Siberian pea shrub). Strong           |      |
| grower with yellow pea-like flowers. 2 to 3 ft.   |      |
| Clothra alnifolia. White alder. Fragrant white flowers in late summer. 2 to 3 ft.                     |      |
| Dogwood (Cornus). Red barked (alba siberica)  |      |
| planted mostly for winter effect. 2 to 3 ft.  "paniculata. A native shrub bearing abundant            |      |
| berries. 2 to 3 ft.  " Aurea. A golden barked shrub. 2 to 3 ft.                                       |      |
| Cydonia japonica (Japanese quince). An old favorite, early flowering red. 2 to 3 ft.                  |      |
| Deutzia crenata. Pride of Rochester, pink fading to white. 2 to 3 ft.                                 |      |
| Deutzia gracilis. Low growing slender branches cov-   |      |
| ered with white flowers. 18 to 24 in.  Lemoine. A taller growing white variety. 18 to 24 in.          |      |
| Euonymus alatua (Winged burnish bush). Peculiar bark, brilliant autumn foliage. 2 to 3 ft.            |      |
| " Europaeus. A large shrub with brightly colored fauits. 2 to 3 ft.                                   |      |
| Forsythia fortunei (Golden bell). Bright yellow flowers before leaves. Well known. 2 to 3 ft.         |      |
| " suspensa. A weeping form of the above. 2 to 3 ft.   |      |
| Hibiscus syriacus (Rose of Sharon). Blooms in Fall.<br>Not particularly hardy until well estab-       |      |
| lished. Pink, white and red. 2 to 3 ft<br>Hydrangea Paniculata grandiflora. A well known              |      |
| Fall flowering shrub. 2 to 3 ft.  " Arborescens sterilis. Summer flowering hydran-                    |      |
| gea, snow white. 2 to 3 ft.  Hypericum densiflorum. St. John's wort. Small yel-                       |      |
| low flowers in mid-summer. 2 to 3 ft.  Kolkwitzia amabilis (Beauty bush). Beautiful pink              |      |
| flowers on slender branches. 2 to 3 ft.   |      |

|  | Each  |
